

Director of Music for St Luke's Church and Community Centre.

The Community of St Luke in Remuera has long been a centre for musical activities in the wider community. Our church building has an excellent acoustic and is in the final stages of installing a refurbished and enhanced pipe organ. Our vision is that St Luke's becomes known throughout New Zealand as a centre of musical excellence.

For this part-time position, while we are open to a range of skills and capabilities, we believe that the ideal candidate will encourage participation and empower others in learning and performing music, is a skilled and experienced musician, has good leadership qualities, and works well with others.
